Airport Improvements

Capital Improvement Program

MIA's \$6.4 billion Capital Improvement Program (CIP) is completed, encompassing all aspects of airport operations, from the Terminal and roadways to the cargo facilities and the airfield.

Terminal: Extending from MIA's Central terminal, the South and North Terminals have added over 4 million square feet to MIA's existing 3.5 million square feet of space.

1. **The South Terminal:** adds 1.7 million square feet to MIA.
2. **The North Terminal:** encompasses more than 3.8 million square feet.

The North, Central and South Terminals have a total of 124 gates, with 101 international capable gates and 23 domestic gates, and a total of 617 ticket counters.

Cargo: MIA's cargo facilities encompass eighteen (18) cargo buildings with over 3.4 million square feet of warehouse, office and support space. Apron space is presently 4.4 million square feet, with 44 common-use cargo positions and 27 leased cargo positions.

Roadway, Transportation and Access Improvements

Central Boulevard: Improvement program completed which included: widening of Central Boulevard, new service roads, wider bridges and improved access to parking facilities.

25th Street Viaduct: Construction of the east phase project was completed in July 2011. The west phase project was completed in July 2016, and provides a direct connection between MIA's cargo facilities and NW 82nd Avenue.

MIA Mover: The elevated train that connects MIA and the new Rental Car Center and the Miami Intermodal Center opened September 9, 2011. The Mover runs through Central Boulevard with the capacity to transport more than 3,000 passengers per hour.

Rental Car Center (RCC): The 3.4 million square foot facility opened on July 13, 2010. The RCC consolidates under one roof the operations of 16 rental car companies, with a combined inventory of 6,500 rental cars.

Miami Intermodal Center (MIC): Next to the RCC will be the MIC, a massive ground transportation hub being developed by the State of Florida Department of Transportation linking rail, light rail, automobile and bus traffic under one roof.
