AIRPORT INSTRUCTION & READINESS

## Social Narrative Brief

# Airport Travel

Today, I am going to the airport.

I am going to travel on an airplane.

The airport is a busy place. There are a lot of people and loud noises. I will need to practice staying calm.

First, I will get my ticket to travel.

Then, I will wait in line to go through security.

It is important to listen to the instructions when I go through security.

I may be told to take off some of my clothing items like my shoes, jacket or backpack. I will put them in a bin.

If I am carrying electronics, I will put those in a bin too.

All of my items will go through a X-ray machine. Don't worry, I will get them back.

Next, I will walk through a metal detector.

Then, I will walk to the gate.

At the gate, I will wait to get on the plane.

I can sit in the chairs and play games, listen to music and read books.

Then, I will line up to get onto the airplane.

I will sit down and put my seat belt on.

I will listen to the instructions on the airplane.

The airplane will then take off.

During my flight, I can lean my chair back, read books, listen to music, and play games.

When the plane lands, I will walk into a new airport.

I will walk to get my luggage.

I will get my luggage.

Now, I will take my luggage and leave the airport.

Wow! I had a great time traveling on an airplane!
