Operational Directive: 11-01
Effective: July 26, 2011

Subject: Closed Circuit Television Policy for Tenant Use – REVOCATION

Background:

Under Operational Directive (OD) 11-01, the Department sought to establish a uniform policy and procedure to allow tenants to access, for a monthly fee, our closed circuit television (CCTV) camera system. However, from the time this OD was established, our security environment continues to evolve requiring heightened measures to maintain the safety and security of our employees, passengers and business partners. The Department has determined there is a need to secure and restrict access to our CCTV system. The Department will no longer allow general CCTV system access and as such, this Policy is revoked. There is one active CCTV User Agreement which shall remain in effect and all rules, fees and maintenance requirements will continue as agreed until that tenant moves on to its own CCTV program or the User Agreement terminates.

Authorization:

Florida Statutes 281.301 provides for the exemption from public access or disclosure the Miami-Dade Aviation Department's Closed Circuit Television (CCTV) system as its access and use is now integrated into the Department's Security Plan. All surveillance footage produced from the Department's CCTV system is exempt from public access and disclosure to the extent this system is used for the safety and security of the airport. Such security video footage is considered confidential and exempt from Florida Statute 119.07 (1) and 286.011 and other laws and rules requiring public access or disclosure.

Policy To Be Revoked: *OD 11-01 Closed Circuit Television Policy for Tenant Use – Effective July 26, 2011*

OD 11-01 is hereby revoked, not to be superseded, amended or replaced. Pursuant to Chapter 25 of the Miami-Dade County Code, the Aviation Director may authorize policy and can therefore, upon proper justification, authorize its revocation.

Lester Soja, Aviation Director

Effective Revocation Date
