TECHNOLOGY FOR A FASTER AND SAFER TRAVEL EXPERIENCE

INBOUND PASSENGERS

Biometric Facial Comparison

Verifies a traveler's identity by matching their facial image to the passport they are presenting.

Global Entry

Allows for expedited clearance for preapproved, low-risk travelers upon arrival in the United States.

Mobile Passport Control (MPC)

MPC app is a free application that allows eligible travelers to expedite their entry into the United States by submitting their passport and customs declaration information.

OUTBOUND PASSENGERS

Biometric Facial Comparison

Allows passengers to board with a quick click of a camera instead of a boarding pass or passport.

Currently offered for international passengers at most gates throughout the airport.

TSA Checkpoint 3-D Scanning

Provides improved explosives detection capabilities at the checkpoint.

Currently located at Concourse D & E - FIS Checkpoints.
