COUNTY

**Date:** January 21, 2025

Agenda Item No. 2(B)(2)

**To:** Honorable Chairman Anthony Rodriguez  
and Members, Board of County Commissioners

**From:** Daniella Levine Cava *Daniella Levine Cava*  
Mayor

**Subject:** Miami-Dade Aviation Department: Aviation Capital Program Report – December 2025

## Most Recent News

The Miami-Dade Aviation Department (MDAD) is advancing the MIA Runway Incursion Mitigation Hot Spot #4 (Corral Area) Project to the construction phase, with a Notice to Proceed scheduled for December 8, 2025. This project focuses on reconfiguring the Corral Area pavement located at the intersection of Runways 8R-26L and 12-30, and Taxiways M, N, P, and Q to enhance safety and reduce runway incursions. Planned improvements include redesigned taxiway connectors, new exit and crossover taxiways, modified pavement fillets, and reconfigured taxiway islands, which will be completed in accordance with the Federal Aviation Administration's (FAA) most recent design standards. In addition to improving operational safety and efficiency, the project will address recurring pavement maintenance issues. Construction is expected to be completed by March 2029.

## MIA's Modernization Program

Significant progress is underway as we modernize 128 passenger boarding bridges, upgrade 196 public-access restrooms, and improve 616 moving conveyance units (escalators, elevators, and moving sidewalks). We began the new year with ninety-five percent (95%) of conveyances in operation, up from eighty-five percent (85%) in 2024, with the remaining five percent (5%) pending modernization, major repair, or annual maintenance. Today, that number has increased even further to approximately ninety-seven percent (97%) in operation. This steady progress reflects our commitment to delivering a modern, reliable, and seamless airport experience for all travelers. Below are three (3) charts that show continued improvement across these vital facilities.

### Moving Conveyances

**CIP Progress Summary**

MDAD continues to make steady progress on its transformative Capital Improvement Program at MIA. As part of these efforts, the MIA Concourse D West Extension at Gate D60 project obtained Majority-In-Interest approval in October 2025. A renderings unveiling ceremony was scheduled for November 7, 2025. In addition, the design criteria package is underway with completion expected by May 2026. The expansion will introduce three new levels to the regional commuter area, enhancing both operations and passenger amenities.

**Background**

At the September 4, 2024, Board of County Commissioners (Board) meeting, Board members amended Ordinance No. 19-122 revising the reporting requirements of the monthly Aviation Capital Program Report (Report) and deleting the ratification requirement for all federal and state grants applied for or received including any amendments or supplemental agreements set forth in Section 2-285.2 of the Code of Miami-Dade County related to MDAD's capital projects. The provisions of the adopted amendment require the inclusion of any information that highlights the improvements, infrastructure investments and capital projects at MIA in Miami-Dade in addition to any other relevant airport activities, accomplishments, and awards that contribute to making MIA a more efficient, innovative, and avant-garde airport. The amendment also requires that all federal or state grants (as described above) be included in the monthly Report, and as requested by Board members, it will also include all MDAD grant applications for the forthcoming year. As such, in addition to the reporting requirements established under the authority of Ordinance No. 19-122 before it was modified, this new Report will include snapshots of any significant action steps taken or any major achievements that serve to enhance efficiencies, expand service offerings, modernize infrastructure, optimize operations or promote growth at MIA, and although not required by law, it will also include any action steps that further develop the County's General Aviation Airports (GAA), which include Miami-Opa locka Executive Airport (OPF), Miami

Executive Airport (TMB), Miami Homestead General Aviation Airport (X51) and Dade-Collier Training and Transition Airport (TNT).

In accordance with Ordinance 19-122 as amended, the Aviation Department has placed its fifty-eighth “Aviation Capital Program Report” on today’s agenda. The new Report contains the additional content required by Ordinance No. 19-122 (as amended) to better inform residents, passengers, visitors, and Board members of the incremental action steps being taken by the County for MIA to achieve world class status and to further develop the GAA. Upon Board approval, a copy of the new Report will be posted on MDAD’s webpage at [http://www.miami-airport.com/transparency\\_report.asp](http://www.miami-airport.com/transparency_report.asp) each month.

### **December 2025 Report**

Table I, as depicted below, shows MIA’s calendar year-to-date passenger and cargo growth rates for the last five years including Year 2025 through the month of August. As can be seen, since the outbreak of the COVID-19 pandemic in March 2020, the percent increase in the total number of passengers from Year 2020 to Year 2021 totaled 99.86 percent as MIA experienced a strong recovery in the demand for air travel in 2021 while the demand for air cargo rose by approximately 18 percent, from 2.3 U.S. tons to 2.7 tons. From Year 2022 to Year 2024, the average percent increase in the total number of passengers totaled 10.3 percent and the same percent for total freight. These percent increases culminated in 2024, when MIA handled nearly 56 million passengers and more than 3 million U.S. tons of cargo.

No less significant are the monthly passenger and total freight numbers, which show that approximately 3.6 million passengers traveled through MIA and more than 277 thousand U.S. tons of total freight were registered in the month of September 2025, making for a grand total of 41.5 million in total passengers (international and domestic) and 2.5 million U.S. tons in total freight (freight tons and mail tons) year-to-date through September 2025. The unprecedented increases in the demand for air travel and air cargo traffic has positioned MIA for further growth.

**Table I - Calendar Year-to-Date (CYTD) Passenger and Cargo Growth Rates for Years 2020-2025**

	Year 2020	Year 2021	Year 2022	Year 2023	Year 2024	% Increase From 2022-2024	Year 2025 (Through September)
Total Passengers	18,663,858	37,302,456	50,684,396	52,340,934	55,926,566	10.3%	41,539,661
Total Freight	2,327,747	2,746,899	2,726,807	2,759,381	3,008,715	10.3%	2,479,855

It is worth noting that the increases in passenger and cargo traffic have led MIA to be recognized as one of the busiest airports in the United States. As shown in Table II below, among U.S. airports, the final Calendar Year 2024 rankings published by the Airports Council International (ACI) show that MIA continues to be ranked as the number 2 airport for international passengers, the number one in international freight and the number three airport in total cargo (freight and mail). Among airports worldwide, MIA continues to be ranked as the number 6 airport for total cargo (freight + mail), however, the ranking value for international freight changed from the number 6 airport in 2023 to the number 5 airport in 2024.

**Table II - Final MIA Rankings for 2024**

<u>Among U.S. Airports</u>	<u>Among Worldwide Airports</u>
1 <sup>st</sup> International Freight	5 <sup>th</sup> International Freight
2 <sup>nd</sup> International Passengers	34 <sup>th</sup> International Passengers
3 <sup>rd</sup> Total Cargo (Freight + Mail)	6 <sup>th</sup> Total Cargo (Freight + Mail)
3 <sup>rd</sup> Total Freight	6 <sup>th</sup> Total Freight
9 <sup>th</sup> Total Number of Operations	13 <sup>th</sup> Total Number of Operations
10 <sup>th</sup> Total Passengers	27 <sup>th</sup> Total Passengers

**Action Steps in Progress**

This new Report provides an outline of the action steps being put into effect to successfully implement the *Future-Ready \$9B Modernization in Action (M.I.A.) Program*, which funds a comprehensive portfolio of projects designed to transform MIA and the GAA into a state-of-the-art, world-class facilities, whether it is in the form of procurement solicitations, contract awards, large capital improvement projects that renovate terminals and concourses, or smaller but functional projects such as improvements to runways, taxilanes, passenger loading bridges, gates, checkpoints, restrooms, baggage handling systems, parking facilities, etc., as well as any achievements, awards or high-tech investments. These action steps also include approximately \$1.7 billion in maintenance upgrades over the next 10 years.

The successful implementation of MDAD's capital portfolio that will renovate the airport's Central, South and North Terminals and expand its cargo facilities is critical for MIA's growth and future readiness as these development projects will replace aging and obsolete airport infrastructure and boost freight capacity. More importantly, these improvements will enable MIA to meet the growing demand of its passenger and cargo aviation markets and provide patrons with an enhanced, innovative, modern-day customer experience that offers greater value and optimizes convenience and efficiency. Two major expansion projects, the Central Terminal Redevelopment Phase II and MIA's New Concourse K are already moving forward with the design work. Below is a summary of the sub-programs within MDAD's Capital Improvement Program (CIP) that will pave the way to meet passenger and cargo demand growth, which is projected to reach approximately 77 million passengers and more than four (4) million tons of freight by the year 2040.

- Central Terminal Redevelopment
- Concourse "F" Modernization
- North Terminal Redevelopment
- South Terminal Expansion (New Concourse K)
- Expanded Cargo Aircraft Parking Positions & Cargo Handling Facilities
- New Privately Funded Airport Hotel

**E. Significant Design Solicitations**

**Notice to Professional Consultants (NTPC)**

1. MIA Concourse Low E and E Satellite Mechanical and Electrical Rooms Upgrade (CA010A) – The scope of work involves upgrading the Mechanical and Electrical rooms in Lower Cc, E, and E-Satellite (all levels). This includes replacing equipment, making necessary room adjustments to fit new equipment, and retrofitting existing equipment to meet current code compliance. The NTPC was advertised July 9, 2025, project briefing held on August 1, 2025, and proposals due September 2, 2025, subsequently, the proposal due date was extended from September 2, 2025, to September 30, 2025. The evaluation phase is in process.

**Request for Design-Build Services (RDBS)**

2. MIA Central Terminal Concourse F Baggage Handling System (BHS) New Piers and Cross Over to Central Terminal (DA076A): The Scope of Work for this design-build project includes the implementation of four (4) new piers in the Central Terminal and a new baggage handling system crossover from the South Terminal to the Central Terminal that will improve the capacity of the existing outbound system. The Design Criteria Package was completed in July 2025. The RDBS is anticipated to be issued in November 2025.

**F. Significant Projects in Design**

1. MIA Fuel Storage Facility Expansion (W019A): The Scope of Work provides for the construction of a new jet fuel storage tank facility and the associated components. Completion of Design Documents – November 2025. (Overall Total Project Costs: \$39,200,000.00)
2. MIA Concourse F to H Sterile Connector, Third Level (CA004A): The Scope of Work provides for secure and sterile connectivity between Concourses F to H through an interconnector that will improve efficiencies in security checkpoints, passenger circulation areas and airline operations. Completion of Design Documents – March 2026. (Overall Total Project Cost: \$102,100,000.00)
3. MIA Perimeter Hardening Phase I (AB016A): The Scope of Work consists of the replacement of the existing Airside Operating Area (AOA) fence with a new MDAD Design Guideline Standard AOA high security fence. Completion of Design Documents – February 2026. (Overall Total Project Cost: \$37,800,000.00)

4. MIA Central Terminal Redevelopment Phase I (BA061A) – The Scope of Work consists of a four-level building expansion to include a post-security corridor and additional concessions between Concourse E and Concourse F. The design documents phase began in December 2024 and is expected to be completed in June 2027. (Overall Total Project Cost: \$345,400,000.00)
5. MIA NTD Baggage Handling System Modifications to the Inline CBIS (AB040A): The scope of work entails upgrades to the existing Transportation Security Agency (TSA) screening equipment within the North Terminal baggage handling system. In compliance with the reporting requirements of Ordinance No. 19-122 before it was amended, Exhibit A provides the status of the capital projects procured and awarded under the seal of the Ordinance including the estimated contract values, the project qualifications for award and the proposed contract measures. Exhibit B provides the financial status of MDAD's capital projects including detailed project budget information, project expenditures from the time a contract is awarded through project completion, and indicators that flag when project expenditures reach 30 percent, 60 percent, and 90 percent of the approved budget amount. The Summary of Changes shows the differences between the previous month's report (November 2025) and the current month's report (December 2025) facilitating review of the most recent actions.

Honorable Chairman Anthony Rodriguez  
and Members, Board of County Commissioners  
Page 18

Exhibit C displays a series of photographs that tell MIA's transformation story as it unfolds. Each month, various pictures will be posted according to the MDAD projects that are approved, initiated or completed, furthermore, photos of any action steps, awards, achievements or events that contribute to MIA's transfiguration or that further develop the GAA will also be included. This month, the pictures include: the Employee Rewards and Recognition Ceremony at MIA for the month of September 2025; a seminar on "How To Do Business with MDAD"; and an announcement on the issuance of \$94 million in grants funds by the FAA for two projects at MIA.

Pursuant to Ordinance No. 14-65, this memorandum will be placed on a Board agenda for review within 30 days. Should you have any questions or require additional information, please contact Aviation Director, Ralph Cutié, at 305-876-7066.

## September 2025 Employee Rewards & Recognition Ceremony Miami International Airport (MIA)

In early September, a passenger lost consciousness and collapsed while waiting to board the MIA Mover. Before emergency help arrived, staff from Crystal Movers, the Miami-Dade Aviation Department and the US Customs and Border Protection agency were quick to act, starting CPR on the passenger, assisting with crowd control, communicating with the Miami-Dade Sheriff's Office (MDSO) and Miami-Dade Fire Rescue (MDFR) and guiding the emergency responders to the site. The passenger remained unconscious for over 15 minutes, and the team continued CPR until the MDSO and MDFR teams arrived. After being transported to Jackson West, the passenger was reported to be in stable condition. What these team members did goes far beyond the scope of their job descriptions. Their actions exemplify our commitment to service and remind us of the incredible people we have on our "I AM MIA" team. **Congratulations!**

## Seminar at Miami International Airport (MIA) “How to Do Business with MDAD”

On September 25, 2025, the Miami-Dade Aviation Department (MDAD), in conjunction with the County's Small Business Development (SBD) Division hosted a "How to Do Business With MDAD" seminar in Concourse D at Miami International Airport. Attendees gained insights on Small Business Enterprise and Disadvantaged Business certifications, how to access future contracts, and best practices for successful engagement. The event was a valuable opportunity to connect, learn, and position firms for success in aviation contracting.

## Federal Aviation Administration Allocates \$94 Million in Grant Funds for Projects at Miami International Airport

On September 29, 2025, Mayor Daniella Levina Cava alongside of Miami-Dade Commissioner Natalie Orbis, Chief Operating Officer, Jimmy Morales, and Ralph Cutié, Director and CEO of Miami International Airport (MIA), announced that the Miami-Dade Aviation Department had received \$94 million in grant funding for two critical projects at MIA including \$80.5 million for the MIA Runway Incursion Mitigation (RIM) Hot Spot 4 – Corral Area project, and \$13.4 million for the MIA Terminal Upper Drive Bridge Rehabilitation project.
